The OSM was adopted for assessment of answer scripts of Rajasthan State and Subordinate Services Combined Competitive Examination, (Mains) 2013 held from 09 to 12<sup>th</sup> April, 2016. Earlier the Centralized assessment was done manually by inviting evaluators in the Commission's Office or at the centers made for evaluation purpose outside Ajmer. It was a lengthy process and takes 5 to 6 months period. In manual processing certain steps like evaluation, randomized checking by the Head Examiners, arithmetical and total checking work etc. were undertaken.

In the present era of Information Technology, after study and analysis of the existing process, under kind leadership of our Hon'ble Chairman Dr. Lalit K. Panwar and Hon'ble Member, Dr. Shiv Singh Rathore, it was decided to go for **On Screen Marking** process.

For OSM, a software was prepared for training evaluators and a training programme was organized by the Commission in the month of February 2016 in which 226 Professors/ Assistant Professors/ College Lecturers of various subjects took participation.

After completion of examination the procedure of OSM initiated. It was a herculean task which was completed in record 63 days and result of the main examination declared on 15-05-2016.

- » Answer Sheet having pages – 32 -36 pages
- » Number of pages scanned – 38 Lacs.
- » Scanning work done at RPSC office in Highly Secured atmosphere.
- » The evaluators used to get Answer Script just by the click of a button..
- » Every question paper had 3 to 4 segments and segment wise parts were given to the subject experts on their screen randomly for assessment in a coded manner.
- » All the questions were checked.

» There was no any manual involvement or interference in OSM.

Marking range was set 0.5 to 10

Out of 3034 recommended candidates (including 145 candidates outside the State), the districts that provided more than 50 per cent candidates were Alwar, Bikaner, Jaipur, Jhunjhunun, Jodhpur and Sikar. The Jaipur district provided the highest i.e. 19.78 per cent.

The above table further reveals that out of 377 (258 Male+119 Female) SC candidates recommended as many as 22.81 per cent belonged to Jaipur district and out of 255 (179 Male+76 Female), ST candidates recommended, as many as 26.67 per cent belonged to Jaipur district.

The districts like Chittorgarh, Pratapgarh, Rajsamand, Sirohi and Udaipur which are dominant in ST's population, were either totally unrepresented or provided one or two candidates. However from other ST dominant district such as Dungarpur and Banswara there is some representation of ST's.

Further analysis of the castewise distribution in the selection to key State Services reveals that amongst Scs nearly 73% representation was from the Balai, Khatik, Meghwal, Raigar. Chamar, Bairwa & Jatav. However, in case of ST majority of the candidates (77%) belonged to Meena community.

This observation is permanent feature and is a result of non-participation by rest of the castes amongst SCs and STs. This is due to their socio-economic backwardness, which continued to be the greatest hindrance in their

educational and other attainments. These observations have been pointed out in earlier reviews also. It is, therefore again recommended that some integrated approach be planned out to bridge up such disparities.

**Position of woman candidates in the selection :-** Total 810 women candidates (including 385 General, 120 SC, 78 ST, 218 OBC and 9 SBC) were also recommended. The following table shows categorywise position of selection of woman candidates against the posts reserved for them :-

**University wise classification :-** The table below reveals that out of 3034 candidates recommended 2783 (91.72%) were graduates of various Universities of the Rajasthan the highest i.e. 43.75% graduates were from the University of Rajasthan alone. Among the recommended candidates 251 (8.27 %) candidates obtained their Graduation degree from various Universities of other States.

Number of candidates	1850	1070	114	3034

**Candidates having Post-Graduation Degree with performance in Graduation**

III	72	6	58	8
<b>Total :</b>	<b>438</b>	<b>1252</b>	<b>1111</b>	<b>75</b>

**Some of the candidates were also having extra qualifications at their credit as mentioned below :-**

S.No.		Number
1	M.B.B.S./B.D.S.	1
2	LL.B./LL.M.	41
3	Ph.D.	184
4	M.Phil.	196
5	B.Ed.	1273
6	M.Ed.	27
7	M.B.A.	7
8	SLET/NET/JRF	1018
9	Diploma Courses	15
10	C.A./C.A.S./ICWA	8

**Change of faculty :-** Change of faculty i.e. switching over from one faculty to another, after Graduation (i.e. at Post-Graduation level) has also been observed in some of the candidates. The details are as follows :-

**Number of candidates**

1. Science Graduates switched over to M.A.	327
2. Commerce Graduates switched over to M.A.	27
3. Arts Graduates switched over to M.Sc. (Comp./I.T.)	2
4. B.E./B.Tech. switched over to M.A.	8

Whatever might have been the reason of such switch over from one faculty to another, but this has certainly put them in an advantageous position in having a larger spectrum of subjects to choose their optional subjects.

**Subjects offered as optionals other than studied at graduation level :-** This interesting feature was observed in the examinations conducted in earlier years also. From amongst 3034 recommended candidates, opted for those subjects mostly (from the group of optional subjects) which they had never studied upto their graduation level (minimum qualification prescribed). It is proved from the fact that 940 (30.98 %) and 508 (16.75%) candidates opted for such one or two subjects (out of two optional) respectively, which they never studied. This category of candidates mostly opts for like, History, Philosophy, Public Administration, Political Science, Geography etc. The convenience in their study and preparation seems to be the main reason. The following statement shows the optional subjects offered by the candidates:-

S.No.	Nomenclature of subject offered	No. of candidates	S.No.	Nomenclature of subject offered	No. of candidates
1.	Agriculture	7	20.	Mathematics	17
2.	Agricultural Engineering	-	21.	Mechanical Engineering	1

19.	Law	39			
<b>Total number of candidates:</b>		<b>I Paper = 3034</b>		<b>II paper = 3034</b>	

**Note :-** Candidates are required to choose two optional subjects. Each optional subject consists of two papers.

**Rural/Urban background :-** It is difficult to classify rural/urban background of the candidates and to have a clear cut classification. Thus, the place of schooling has been the criteria of such classification. Keeping this fact in view, it has been observed that out of 3034 recommended candidate 1583 (52.18%) were those, who were having urban and 1451 (47.82%) rural background.

The Divisional Headquarters, having educational institutions of long standing, repute and equipped with better infrastructure have contributed largely towards the better performance in this examination.

**Employment status :-** Out of 3034 recommended candidates, as many as 2162 (71.25%) were already in service, in one capacity or the other in Government or private organizations and 872 (28.75 %) were unemployed fresh candidates. It reveals that experience has played an important role in the selections.

**Contribution of age factor :-** Age factor also continues to play a positive role in the performance of the candidates. Nearly 73.10% candidates were in the age group of 21 to 33 years.

Age group (years)	Number of candidates	Percentage
21-25	505	16.64
26-30	1059	34.90
31-33	654	21.55

***If innovation is a mindset, it has to be cultivated with a systematic educational approach. This is quite evident with the way Dr. Shiv Singh Rathore has built up to his current position of expertise.***

### **Dr. Shiv Singh Rathore - Qualifications**

Dr. Shiv Singh Rathore completed his M.Sc. in Geology from Jai Narain Vyas University, Jodhpur. First in his class and a Gold Medalist in M.Sc, he then moved on to his Research work. Not one to shy away from substantial subjects, his research was based on "Hydro Geotourism and the burning problem of rising ground water level of Jodhpur city, Rajasthan, India". His scholarly performance and outstanding approach towards his research subject, earned him a Ph.D. degree from Jai Narain Vyas University, Jodhpur.

His Erudite Research Work has been awarded Marwar Ratan. Not only this his concept of Hydrogeotourism was honoured by District Administration, Govt. of Rajasthan with Appreciation Certificate on Independence Day. His research and hydrogeotourism concept was also honoured with Gold Medal on Veer Durgadas Jayanti.

### **Dr. Shiv Singh Rathore – Research Work**

Dr. Singh has made a thorough study of natural and traditional water bodies of Jodhpur city. He initiated for the very first time - the classification of Jodhpur's water bodies based on their origin, size, and characteristics amongst other discernible traits. He is credited with the very coinage of the term hydrogeotourism in the world.

Dr. Singh has studied various geotourism sites, geomorphites, geosites, and geoparks on an international level and concurrent with the modified Knapic et al., 2009, USA scale. He found that water bodies of Rajasthan are the most suitable as hydrogeotourism sites.

***"Hydrogeotourism refers to tourism that sustains or enhances the geological and geographical character of the water impounding place or structures being visited, including its scientific educational value, environment, culture, aesthetics, heritage and well-being of its residents. Hydrogeotourists are conscious of the environment and inclined to seek culture and unique experiences when they travel to water impounding places or structures of any area."***

This is a new segment in tourism. As such, it has a vast and untapped potential to be promoted as an extended

subcategory of educational or ecotourism or destination events or royal wedding and social gathering tourism. This endeavour can directly help in :-

- » The growth of tourism
- » Restoration of the world famous royal heritage of Rajasthan
- » Most importantly, it can help save water from contamination. The pollution level in most of these water bodies is extremely high and steadily rising. The hydrogeotourism approach will make the society more conscious towards these water bodies. Hence, it will be directly responsible for the potential increase of safe drinking water for our societies.

#### **Dr. Shiv Singh Rathore – Research Achievement**

1. To solve the burning problem pertaining to critical ground water rising level and its adverse effects on the people and property of the Jodhpur city.
2. Documentation and classification of water impounding structures of the Jodhpur city and their implication to hydrogeotourism and geoheritage sites.
3. Reporting of heavy metals from surface and ground water of the Jodhpur city and their health hazards.

#### **Dr. Shiv Singh Rathore – Research Award**

1. Marwar Ratan for the year 2015 was given to Dr Shiv Singh's outstanding research work.
2. Dr. Rathore's Ph.D. and his concept of Hydrogeotourism was honoured by District Administration, Govt. of Rajasthan with Appreciation Certificate on Independence Day.
